THIS IS AN INITIATIVE — NOT JUST AN EVENT

The Emergency & Medical Transport Conference and Expo EMTEX – is a visionary global series of conferences designed to shape the future of emergency & medical transport through collaboration, innovation, and cross-regional partnerships to be held in the Middle East, Africa, & Asia.

This platform unites medical transport, emergency, and air ambulance professionals to connect, collaborate, and save lives.

More than an expo, it builds real partnerships between hospitals, medical tourism agencies, and healthcare experts to strengthen emergency response and patient care.

WHY EMTEX 2026?

EMTEX 2026 is the Middle East's leading platform for air and ground medical transport and rescue, uniting education, innovation, and global networking. The conference features expert sessions in clinical care, aviation safety, management, and communication, while the expo showcases the latest technologies and solutions in emergency medical transport.

It brings together physicians, nurses, paramedics, pilots, and industry leaders to strengthen collaboration, improve service quality, and drive business growth across the medical transport sector.

Connect with hospitals across the Middle East & beyond to **build new international partnerships.**

A photograph of three EMTs in uniform standing in front of an ambulance. The central figure is a woman with dark hair, wearing a dark uniform with a 'PARAMEDIC' patch on her shoulder and blue gloves. She is smiling and holding a red and black bag. To her left is a man with a stethoscope around his neck, and to her right is another man in a dark uniform. The background shows the interior of an ambulance with various medical equipment.
